BEYOND INDUSTRY STANDARDS

*We sail with the wind of sustainability,
leaving a positive imprint on the
environment we navigate.*

Company Overview

FPSO Ownership and Operation:

STAC Marine owns and operates a fleet of FPSO vessels, providing clients with flexible and scalable solutions for offshore production and storage needs. Our FPSO units are designed to maximize productivity, with advanced processing capabilities and storage capacities tailored to meet project requirements.

Offshore Operations Support:

STAC Marine offers comprehensive support services for offshore operations, including logistics management, maintenance, and technical assistance. Our experienced team ensures the smooth and efficient operation of FPSO units, optimizing uptime and minimizing downtime.

Project Management:

STAC Marine provides end-to-end project management services, from concept development to execution and commissioning. We work closely with clients to customize solutions that meet their specific project objectives, budget constraints, and regulatory requirements.

Engineering and Design:

Our in-house engineering and design team specializes in the development of FPSO solutions tailored to the unique challenges of offshore environments. We leverage cutting-edge technologies and industry best practices to optimize design efficiency, safety, and performance.

Vision Statement:

Pioneering a future of seamless operation, where excellence and sustainability converge.

Mission Statement

"At STAC Marine, our mission is to be the preferred partner for offshore oil and gas production, delivering safe, reliable, cost-effective solutions that exceed our clients' expectations."

Core Values

At STAC Marine these values guide every wave, shaping our commitment to excellence and responsibility.
